

## Maintenance advice

- Do wash your vehicle occasionally. The water repellent property of Lexus ProTect creates a self-cleaning surface which means that less cleaning is required. Use vehicle wash concentrate with either a sponge or cloth, then rinse with clean water. Dry with a synthetic cloth or leather chamois.
- Do use a hand wash, jet wash or a mechanical car wash on regular setting if you wish.
- Do not wax or polish on top of the Lexus ProTect coating.
- Do not apply any kind of conservers or wax top-ups.
- In the event of collision damage and repair:
  - Consult Lexus Cyprus
  - The Lexus ProTect coating can be restored
- Lexus ProTect provides unrivalled protection against the damaging initial effects of bird lime and tree sap. However, it is strongly recommended that such deposits are removed immediately, as neither are covered under this guarantee.
